Prior to entering an agreement with an underwriter, the CONTRACTOR shall submit a proposal to TENNCARE for review and approval. The rates for the premiums assigned to the benefit package shall be included in this submission for review and approval by TENNCARE and the Department of Commerce and Insurance, TennCare Division. The CONTRACTOR shall not charge rates in excess of those approved by TENNCARE during the term of this Agreement. A.1.3. Enrollee Cost Share Responsibilities. The CONTRACTOR and all providers and subcontractors shall not require any cost sharing responsibilities for TennCare covered services except to the extent that cost sharing responsibilities are required for those services by TENNCARE in accordance with TennCare rules and regulations or TENNCARE approved policies and procedures for TennCare

The current sliding scale schedule to be used in determining applicable cost sharing responsibilities and out-of-pocket expenses for TennCare enrollees is described in the chart below. These cost share responsibilities do not apply to the Optional Benefit Package that is described in Section A.1.2.4 of this Agreement.

<b>Prior to January 1, 2003</b>	<b>0 to 100% of Poverty</b>	<b>101-199% of Poverty</b>	<b>200% and Above Poverty</b>
Dental visits	0	\$15 per visit	\$25 per visit
Annual out-of-pocket maximum (includes all TennCare covered copay services)	N/A	\$1,000 for individuals; \$2,000 for families	\$2,000 for individuals; \$4,000 for families
<b>Effective January 1, 2003</b>	<b>Under 100% of Poverty</b>	<b>100-200% of Poverty</b>	<b>Over 200% of Poverty</b>
Dental visits	0	\$15 per visit	\$15 per visit
Annual out-of-pocket maximum (includes all TennCare covered copay services)	N/A	\$1,000 for individuals; \$2,000 for families	\$2,000 for individuals; \$4,000 for families

The CONTRACTOR shall track and report to TENNCARE the amount of enrollee cost-sharing liabilities on a quarterly basis in a form and format to be specified by TENNCARE. TENNCARE shall aggregate cost-sharing information submitted by TennCare DBM, MCOs, BHOs and the PBM to identify enrollees that have met or exceeded their annual out-of-pocket expenditure maximum. The CONTRACTOR agrees to coordinate reimbursement to enrollees, either directly or through its network providers, that have exceeded the applicable out-of-pocket maximum, upon receipt of notification by TENNCARE. Should the CONTRACTOR elect to reimburse enrollees through its network providers, the CONTRACTOR shall conduct an audit of the providers that have been reimbursed in order to assure that enrollees received appropriate credit and/or reimbursement and are held harmless for amounts that exceed their out-of-pocket maximum.

The CONTRACTOR shall be expressly prohibited from waiving or using any alternative cost sharing schedules, unless required by TENNCARE. Further, the CONTRACTOR shall not discourage enrollees from paying applicable copayment obligations.

If, and at such time that TENNCARE amends the cost sharing rules, the rules shall automatically be incorporated into this Agreement and become binding on the DBM, and the DBM's providers.

The CONTRACTOR shall require, as a condition of payment, that the service provider accept the amount paid by the CONTRACTOR or appropriate denial made by the CONTRACTOR (or, if applicable, payment by the CONTRACTOR that is supplementary to the enrollee's third party payor) plus any applicable amount of cost sharing responsibilities due from the enrollee as payment in full for the service. Should a provider, or a collection agency acting on the provider's behalf, bill an enrollee for amounts other than the applicable amount of cost sharing responsibilities due from the enrollee, once a CONTRACTOR becomes aware the CONTRACTOR shall notify the provider and demand that the provider and/or collection agency cease such action against the enrollee immediately. After notification by the CONTRACTOR, if a provider continues to bill an enrollee, the CONTRACTOR shall refer the provider to the TBI.

Providers or collection agencies acting on the provider's behalf may not bill enrollees for amounts other than applicable cost sharing responsibilities for TennCare covered services except as permitted by TennCare rule 1200-13-12-.08 and as described below. Providers may seek payment from an enrollee in the following situations:

1. if the services are not covered by TennCare and the provider informed the enrollee the services were not covered prior to providing the service. The provider is required to inform the enrollee of the non-covered service and have the enrollee acknowledge the information. If the enrollee still requests the service, the provider shall obtain such acknowledgment in writing prior to rendering the service. Regardless of any understanding worked out between the provider and the enrollee about private payment, once the provider bills an MCO for the service that has been provided, the prior arrangement with the enrollee becomes null and void without regard to any prior arrangement worked out with the enrollee; or
  2. if the enrollee's TennCare eligibility is pending at the time services are provided and if the provider informs the person they will not accept TennCare assignment whether or not eligibility is established retroactively. Regardless of any understanding worked out between the provider and the enrollee about private payment, once the provider bills an MCO for the service the prior arrangement with the enrollee becomes null and void without regard to any prior arrangement worked out with the enrollee; or
  3. if the enrollee's TennCare eligibility is pending at the time services are provided, however, all monies collected, except applicable cost share amounts must be refunded when a claim is submitted to an MCO if the provider agreed to accept TennCare assignment once retroactive TennCare eligibility was established. (The monies collected shall be refunded as soon as a claim is submitted and shall not be held conditionally upon payment of the claim); or
  4. the enrollee requests services that are non-TennCare covered services provided at the option of the CONTRACTOR in accordance with the terms of this Agreement.
- A.1.4. Adherence to TENNCARE Rules and Regulations: The CONTRACTOR shall perform all services under this Agreement. CONTRACTOR shall comply with all applicable administrative rules and TENNCARE written policies and procedures, as may be amended from time to time. TENNCARE shall provide CONTRACTOR with copies of such rules and policies.

The DBM and MCO shall provide the other party with a list of its Care Coordinators and telephone number(s) at which each Care Coordinator may be contacted. When either party receives a request for authorization from a provider for a member and the party believes care is the

If the Claims Coordinators are unable to reach agreement on which party is responsible for payment of the claim, the claim shall be referred to the Claims Coordination Committee for review.

The DBM and MCO will establish a Claim Coordination Committee made up of Claims Coordinators and other representatives, as needed, from each party. The number of members serving on the Claim Coordination Committee shall be determined by the mutual agreement of the parties from time to time during the term of this Agreement, or, if the parties fail to agree within ten (10) calendar days of the execution of this Agreement, the Claim Coordination Committee shall consist of two (2) representatives of each party. The Claim Coordination Committee shall review any disputes and negotiate responsibility among the parties. Unless otherwise agreed, such meeting shall take place within ten (10) calendar days of receipt of the initial disputed claim or request from the provider. If resolution of the claim results in the party who assumed responsibility for authorization and payment having no liability, the other party will reimburse and abide by the prior decisions of that party. Reimbursement will be made within ten (10) business days of the Claim Coordination Committee's decision.

If the Claim Coordination Committee cannot reach an agreement as to the proper division of financial responsibility within ten (10) business days of the initial referral to the Claim Coordination Committee, said claim shall be referred to the Chief Executive Officers (CEO) or the CEO's designee, of both DBM and MCO for resolution immediately. fourteen (14) days after the meeting among the CEOs or their designee(s), submit a request for resolution of the dispute to the state or the state's designee for a decision on responsibility after the service has been delivered.

The Response shall contain the same information required of the Request for Resolution. Failure to timely file a Response or obtain an extension from the state shall be deemed a waiver of any objections to the Request for Resolution.

The state, or its designee, shall make a decision in writing regarding who is responsible for the payment of services within ten (10) days of the receipt of the required information. ("Decision"). The "Decision" may reflect a split payment responsibility that will designate specific proportions to be shared by the MCO and the DBM which shall be determined solely by the State, or its designee based on specific circumstances regarding each individual case. The extension will be based on the ability of the CONTRACTOR and TENNCARE to negotiate a risk-based payment methodology using utilization data collected during the initial contract term. The ability to move to a risk based contract is based on the assumption that both the provider network and utilization will have been increased and stabilized during the initial contract term and, therefore, a suitable capitation figure can be determined. Based on the utilization data collected during the first eighteen (18) months of this Contract, an independent actuary will establish a monthly capitation rate to be paid per enrollee. E.5.a.ii.(1) The State shall notify CONTRACTOR in writing of the Breach and the amounts to be withheld as Liquidated Damages.

E.5.a.ii.(2) The parties agree that due to the complicated nature of the CONTRACTOR'S obligations under this Contract it would be difficult to specifically designate a monetary amount for a Breach by CONTRACTOR as said amounts are likely to be uncertain and not easily proven. CONTRACTOR hereby represents and covenants it has carefully reviewed the liquidated damages contained in Attachment III and agree that said amounts represent a reasonable relationship between the amount and what might reasonably be expected in the event of Breach, and are a reasonable estimate of the damages that would occur from a Breach.

E.5.a.ii.(3) It is hereby agreed between the parties that the liquidated damages represent solely the damages and injuries sustained by the State in losing the benefit of the bargain with CONTRACTOR and do not include: any injury or damage sustained by a third party and CONTRACTOR agrees that the liquidated damage amount is in addition to any amounts CONTRACTOR may owe the State pursuant to the indemnity provision or other section of this Contract;

E.5.a.ii.(4) The State may continue to withhold the liquidated damages or a portion thereof until the CONTRACTOR cures the Breach, the State exercises its option to declare a Partial Default, or the State terminates the Contract.

E.5.a.ii.(5) The State is not obligated to assess liquidated damages before availing itself of any other remedy.

E.5.a.ii.(6) The State may choose to discontinue liquidated damages and avail itself of any other remedy available under this Contract or at law or equity; provided, however, CONTRACTOR shall receive a credit for said liquidated damages previously withheld except in the event of a Partial Default.

E.5.a.iii. Partial Default

E.5.a.iii.(1) In the event the State declares a Partial Default, the State shall provide written notice to the CONTRACTOR of the following:

E.5.a.iii.(1)(a) The date which CONTRACTOR shall terminate providing the service associated with the Breach; and

E.5.a.iii.(6) Upon Partial Default, the CONTRACTOR shall have no right to recover from the State any actual, general, special, incidental, consequential, or any other damages whatsoever of any description or amount.

E.5.a.iii.(7) CONTRACTOR agrees to cooperate fully with the State in the event a Partial Default is taken.

- E.5.a.iv.(1) The CONTRACTOR shall be notified of the termination in writing by the State. Said notice shall hereinafter be referred to as Termination Notice.
- E.5.a.iv.(2) The Termination Notice may specify either that the termination is to be effective immediately, on a date certain in the future, or that the CONTRACTOR shall cease operations under this Contract in stages.
- E.5.a.iv.(3) CONTRACTOR agrees to cooperate with the State in the event of a termination, Partial Default or Partial Takeover.
- E.5.a.iv.(4) In the event of a termination, the State may withhold any amounts which may be due CONTRACTOR without waiver of any other remedy or damages available to the State at law or at equity.
- E.5.a.iv.(5) In the event of a termination, the CONTRACTOR shall be liable to the State for any and all damages incurred by the State and any and all expenses incurred by the State which exceed the amount the State would have paid CONTRACTOR under this Contract.
- E.5.b. State Breach— In the event of a Breach of contract by the State, the CONTRACTOR shall notify the State in writing within thirty (30) days of any Breach of contract by the State. Said notice shall contain a description of the Breach.

- E.5.b.ii. In no event shall any Breach on the part of the State excuse the CONTRACTOR from full performance under this Contract.
- E.5.b.iii. In the event of Breach by the State, the CONTRACTOR may avail itself of any remedy at law in the forum with appropriate jurisdiction; provided, however, failure by the CONTRACTOR to give the State written notice and opportunity to cure as described in section E.5.b. operates as a waiver of the State's Breach.
- E.5.b.iv. Failure by the CONTRACTOR to file a claim before the appropriate forum in Tennessee with jurisdiction to hear such claim within one (1) year of the notice described in section E.5.b. shall operate as a waiver of said claim in its entirety. It is agreed by the parties this provision establishes a contractual period of limitations for any claim brought by the CONTRACTOR.
- E.6. Partial Takeover. The State may, at its convenience and without cause, exercise a partial takeover of any service which the CONTRACTOR is obligated to perform under this Contract, including but not limited to any service which is the subject of a subcontract between CONTRACTOR and a third party, although the CONTRACTOR is not in Breach (hereinafter referred to as "Partial Takeover"). Said Partial Takeover shall not be deemed a Breach of Contract by the State.
- E.6.a. CONTRACTOR shall be given at least thirty (30) days prior written notice of said Partial Takeover with said notice to specify the area(s) of service the State will assume and the date of said assumption.
- E.6.b. Any Partial Takeover by the State shall not alter in any way CONTRACTOR'S other obligations under this Contract.

- E.6.d. Upon Partial Takeover, the CONTRACTOR shall have no right to recover from the State any actual, general, special, incidental, consequential, or any other damages whatsoever of any description or amount.
- E. 7 Termination Plan. The CONTRACTOR must have a termination plan to be implemented in the event that the contract between TENNCARE and the CONTRACTOR is terminated for any of the above stated reasons.

The CONTRACTOR shall prepare and submit, within nine (9) months after the close of the reporting period, an annual report of its activities funded under this Contract to the commissioner or head of the contracting agency, the Tennessee Comptroller of the Treasury, and the Commissioner of Finance and Administration. The annual report for any CONTRACTOR that receives \$300,000 or more in aggregate federal and state funding for all its programs shall include audited financial statements. All books of account and financial records shall be subject to annual audit by the Tennessee Comptroller of the Treasury or the Comptroller's duly appointed representative. When an audit is required, the CONTRACTOR may, with the prior approval of the Comptroller, engage a licensed independent public accountant to perform the audit. The audit contract between the CONTRACTOR and the licensed independent public accountant shall be on a contract form prescribed by the Tennessee Comptroller of the Treasury. Any such audit shall be performed in accordance with generally accepted government auditing standards, the provisions of OMB Circular A-133, if applicable, and the *Audit Manual for Governmental Units and Recipients of Grant Funds* published by the Tennessee Comptroller of the Treasury. The CONTRACTOR shall be responsible for reimbursement of the cost of the audit prepared by the Tennessee Comptroller of the Treasury, and payment of fees for the audit prepared by the licensed independent public accountant. Payment of the audit fees of the licensed independent public accountant by the CONTRACTOR shall be subject to the provisions relating to such fees contained in the prescribed contract form noted above. Copies of such audits shall be provided to the designated cognizant state agency, the State Contracting Department, the Tennessee Comptroller of the Treasury, and the Department of Finance and Administration and shall be made available to the public.

The State shall have royalty-free and unlimited rights to use, disclose, reproduce, or publish, for any purpose whatsoever, all said work products. The CONTRACTOR shall furnish such information and data upon request of the State, in accordance with the Contract and applicable State law.
- E.11. Performance Bond. Upon approval of the Contract by all appropriate State officials in accordance with applicable State laws and regulations, the CONTRACTOR shall furnish a performance bond in the amount equal to Two Million Dollars (\$2,000,000.00), guaranteeing full and faithful performance of all undertakings and obligations under this Contract for the initial Contract term and all extensions thereof. The bond shall be in the manner and form prescribed by the State and must be issued through a company licensed to issue such a bond in the State of Tennessee.

The CONTRACTOR shall obtain the required performance bond in form and substance acceptable to the State and provide it to the State no later than May 22, 2002. Failure to provide the performance bond prior to the deadline as required shall result in contract termination.

In lieu of a performance bond, a surety deposit in the sum of two million dollars (\$2,000,000.00) may be substituted if approved by the State prior to its submittal.

- E.12. Printing Authorization. The CONTRACTOR will be deemed to have satisfied its obligations under this section by exercising the same level of care to preserve the confidentiality of the State's information as the CONTRACTOR exercises to protect its own confidential information so long as such standard of care does not violate the applicable provisions of the first paragraph of this section.

The CONTRACTOR'S obligations under this section do not apply to information in the public domain; entering the public domain but not from a breach by the CONTRACTOR of this Contract; previously possessed by the CONTRACTOR without written obligations to the State to protect it; acquired by the CONTRACTOR without written restrictions against disclosure from a third party which, to the CONTRACTOR'S knowledge, is free to disclose the information; independently developed by the CONTRACTOR without the use of the State's information; or, disclosed by the State to others without restrictions against disclosure.

All terms, conditions, and policies stated herein apply to staff, agents, officers, subcontractors, providers, volunteers and anyone else acting for or on behalf of the CONTRACTOR. TennCare enrollees are the intended third party beneficiaries of contracts between the state and managed care organizations and of any subcontracts or provider agreements entered into by managed care organizations with subcontracting providers and, as such, enrollees are entitled to the remedies accorded to third party beneficiaries under the law. This provision is not intended to provide a cause of action against the Bureau of TENNCARE or the State of Tennessee by enrollees beyond any that may exist under state or federal law.

### **GUIDELINES FOR INTERNAL QUALITY MONITORING PROGRAMS OF ORGANIZATIONS CONTRACTING WITH TENNCARE**

Each Organization which contracts with TENNCARE (also referred to as the State) shall have in place an internal quality monitoring system. Internal Quality Monitoring programs (QMPs) consist of systematic activities, undertaken by the organization itself to monitor and evaluate the care delivered to enrollees according to predetermined, objective standards, and to effect improvements as needed. The following guidelines will be used to establish State standards for internal QMPs for TENNCARE contractors.

The guidelines were derived from three sources:

- The National Committee for Quality Assurance (NCQA) Quality Assurance Managed Care Organization Surveyor Guidelines, 2000;
- The National Association of HMO Regulators/National Association of Insurance Commissioners' Recommended Operational Requirements for HMO Quality Assurance Programs, adopted by the NAIC/NAHMOR Joint Task Force, December, 1988;
- The CMS Office of Prepaid Health Care's Quality Assurance Standards for HMOs and CMPs Contracting with the Medicare Program, dated November, 1989;

as detailed in "A HEALTH CARE QUALITY IMPROVEMENT SYSTEM FOR MEDICAID COORDINATED CARE", U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES, Health Care Financing Administration Medicaid Bureau, December 23, 1992.

## **SECTION I**

### **GUIDELINES FOR INTERNAL QUALITY MONITORING PROGRAMS OF ORGANIZATIONS CONTRACTING WITH TENNCARE**

#### **STANDARD I: WRITTEN QMP DESCRIPTION**

The organization has a written description of its QMP. This written description meets the following criteria:

- A. Goals and Objectives - The written description contains a detailed set of QM objectives which are developed annually and include a timetable for implementation and accomplishment.
- B. Scope -
  - 1. The scope of the QMP is comprehensive, addressing both the quality of clinical care and the quality of non-clinical aspects of service, such as and including: availability, accessibility, coordination, and continuity of care.
  - 2. The QMP methodology provides for review of the entire range of care provided by the organization, by assuring that all demographic groups, care settings, (e.g., surgery centers, ambulatory care including that provided in private practice offices) and types of services (e.g., preventive, primary, specialty care, and ancillary) are included in the scope of the review.
- C. Specific Activities - The written description specifies quality of care studies and other activities to be undertaken over a prescribed period of time, and methodologies and organizational arrangements to be used to accomplish them. Individuals responsible for the studies and other activities are clearly identified and are appropriate.
- D. Continuous Activity - The written description provides for continuous performance of the activities, including tracking of issues over time.
- E. Provider Review - The QMP provides for:
  - 1. Review by dentists and other dental professionals of the process followed in the provision of dental services; and
  - 2. Feedback to dental professionals and organization staff regarding performance and patient results.
- F. Focus on Dental Outcomes - The QMP methodology addresses dental outcomes to the extent consistent with existing technology.

#### **STANDARD II: SYSTEMATIC PROCESS OF QUALITY ASSESSMENT & IMPROVEMENT**

The QMP objectively and systematically monitors and evaluates the quality and appropriateness of care and service to members, through quality of care studies and related activities, and pursues opportunities for improvement on an ongoing basis.

The QMP has written guidelines for its quality of care studies and related activities which include:

- A. Specification of dental services delivery areas to be monitored -
  - 1. The monitoring and evaluation of care reflects the population served by the Contractor in terms of age groups, disease categories, and special risk status.
  - 2. For the TENNCARE population, the QMP monitors and evaluates, at a minimum, care and services in certain priority areas of concern selected by the State. These may be taken from among those identified by the Centers for Medicare and Medicaid (CMS)

(formerly Health Care Financing Administration/HCFA), or other sources as deemed necessary by TENNCARE.

3. At its discretion and/or as required by TENNCARE, the Contractor's QMP also monitors and evaluates other important aspects of care and services.

B. Use of Quality Indicators -

Quality indicators are measurable variables relating to a specified dental services delivery area, which are reviewed over a period of time to monitor the process or outcomes of care delivered in that area.

1. The Contractor identifies and uses quality indicators including those specified in Clinical and Health Services Delivery Areas of Concern that are objective, measurable, and based on current knowledge and clinical experience.
2. For the priority areas selected by the state from the CMS Bureau's list of priority dental services delivery areas of concern, or other sources as deemed necessary by the State, the organization shall monitor and evaluate quality of care through studies which include, but are not limited to, the quality indicators also specified by the CMS Bureau or by the State.
3. Methods and frequency of data collection are appropriate and sufficient to detect need for program change.

C. Use of Clinical Care Standards/Practice Guidelines -

1. The QMP studies and other activities monitor quality of care against dental service delivery standards or practice guidelines specified for each area identified in "STANDARD II, A," above.
2. The standards/guidelines are based on reasonable scientific evidence and are developed or reviewed by plan providers.
3. The standards/guidelines focus on the process and outcomes of dental care delivery, as well as access to care.
4. A mechanism is in place for continuously updating the standards/guidelines.
5. The standards/guidelines shall be included in provider manuals developed for use by dental providers or otherwise disseminated to providers as they are adopted.
6. The standards/guidelines address preventive dental services.
7. Standards/guidelines are developed for the full spectrum of populations enrolled in the plan.
8. The QMP shall use these standards/guidelines to evaluate the quality of care provided by the Contractor's providers, whether the providers are organized in groups or as individuals.

D. Analysis of Clinical Care and Related Services -

1. Appropriate clinicians monitor and evaluate quality through review of individual cases where there are questions about care, and through studies analyzing patterns of clinical care and related services. For quality issues identified in the QMP's targeted clinical areas, the analysis includes the identified quality indicators and uses clinical care standards or practice guidelines.

2. Multidisciplinary teams are used, where indicated, to analyze and address systems issues.
3. From a. and b., clinical and related service areas requiring improvement are identified.

E. Implementation of Remedial/Corrective Actions -

The QMP includes written procedures for taking appropriate remedial action whenever, as determined under the QMP, inappropriate or substandard services are furnished, or services that should have been furnished were not.

These written remedial/corrective action procedures include:

1. specification of the types of problems requiring remedial/corrective action;
2. specification of the person(s) or body responsible for making the final determinations regarding quality problems;
3. specific actions to be taken;
4. provision of feedback to appropriate dental professionals and staff;
5. the schedule and accountability for implementing corrective actions;
6. the approach to modifying the corrective action if improvements do not occur;
7. procedures for terminating the affiliation with the dental professional.

F. Assessment of Effectiveness of Corrective Actions -

1. As actions are taken to improve care, there is monitoring and evaluation of corrective actions to assure that appropriate changes have been made. In addition, changes in practice patterns are tracked.
2. The Contractor assures follow-up on identified issues to ensure that actions for improvement have been effective.

G. Evaluation of Continuity and Effectiveness of the QMP -

1. The Contractor conducts a regular examination of the scope and content of the QMP to ensure that it covers all types of services in all settings, as specified in STANDARD I-B-2.
2. At the end of each year, a written report on the QMP is prepared, which addresses: QM studies and other activities completed; trending of clinical and service indicators and other performance data; demonstrated improvements in quality; areas of deficiency and recommendations for corrective action; and an evaluation of the overall effectiveness of the QMP.
3. There is evidence that QM activities have contributed to reasonable improvements in the care delivered to members such that the level of care provided is that which is recognized as acceptable professional practice in the respective community in which particular providers practice.

**STANDARD III: ACCOUNTABILITY TO THE GOVERNING BODY**

## **CLINICAL AND HEALTH SERVICES DELIVERY AREAS OF CONCERN, QUALITY INDICATORS, AND CLINICAL PRACTICE GUIDELINES FOR QUALITY IMPROVEMENT IN TENNCARE ORGANIZATIONS**

### **I. INTRODUCTION**

The section entitled "GUIDELINES FOR INTERNAL QUALITY MONITORING PROGRAMS OF ORGANIZATIONS CONTRACTING WITH TENNCARE" (the Guidelines) describes the activities which TENNCARE requires as standards for internal quality assurance programs (QMPs). The Guidelines, in part, call for TennCare contractors responsible for administering medical/dental services to implement a systematic process of quality assessment and improvement by which the care delivered to enrollees is monitored, evaluated, and continually improved. To comply with the Guidelines for internal QMPs.

### **II. QUALITY OF CARE STUDIES**

An organization cannot monitor the care delivered to every enrollee each time he or she requires health care. Such an attempt would be beyond the organization's and State and Federal resources. As an alternative, the organization shall select certain aspects of care to monitor over a specified time period. Over subsequent time periods, monitoring will be repeated in that area to detect patterns of care over time, and new areas will be selected for initial study. Such monitoring takes place through focused quality of care studies.

Focused quality of care studies are detailed investigations of certain aspects of health care services which are designed to answer defined questions about the quality and appropriateness of care and point the way to how that care can be improved. Such focused studies are superior to random or unfocused record reviews because they provide information about care in the aggregate as opposed to information about the care received by a limited number of enrollees.

### **III. CLINICAL AND HEALTH SERVICES DELIVERY AREAS OF CONCERN:**

Item II. A. in the "Guidelines for Internal Quality Monitoring Programs of Organizations Contracting with TENNCARE", states in part:

"The QMP has written guidelines for its quality of care studies...which shall include:

- 1. specification of clinical or health services delivery area to be monitored -

- a. The monitoring and evaluation of care reflects the population served by the organization in terms of age groups, disease categories, and special risk status.
- b. For the TENNCARE population, the QMP monitors and evaluates, at a minimum, care and services in certain priority areas of concern selected by the State. These may be taken from among those identified by HCFA's Medicaid Bureau, or other sources as deemed necessary by TENNCARE."

A review of the literature and discussion with health authorities pertaining to the prevalence and significance of health concerns has lead to the identification of the following priority clinical and health services delivery areas of concern. With the exception of the identification of pregnancy, childhood immunizations, and continuity of care, as required for continuous monitoring and evaluation by plans, the areas listed below are not listed in any order of priority.

Clinical areas of concern:

Dental Screening and Services for Individuals less than 21 Years of Age and over 21Years of Age

Health Services Delivery Areas of Concern:

1. **Continuity/Coordination of Care (Required continual monitoring with quarterly reporting)**
2. Access to Care
3. Utilization of Services
4. Health Education
5. Emergency Services

One of the health services delivery areas of concern (continuity/coordination of care) is required for continuous evaluation and study if applicable to the patient population. In addition, it is required that Contractor select on a quarterly basis, at least one additional area of concern to study. This may be a follow-up of a previously performed evaluation or a new study. Areas of concern may come from the above noted list, or at the discretion of the Contractor, from another source. In addition, the Contractor will perform such studies as the State may direct. Effective July 1, 2001, all entities contracted with TENNCARE for the provision of services to children are required to begin a continuous evaluation and study of access to EPSDT services for individuals less than twenty-one (21) years of age. A copy of the study design shall be submitted to TENNCARE for review and approval within ninety (90) days of the effective date of this Agreement.

#### **IV. CLINICAL PRACTICE GUIDELINES/STANDARDS:**

The identification of areas needing improvement and the creation of a baseline for future assessment necessitates specifying goals or standards for health services to which care actually delivered can be compared. Item II. C. in the Guidelines states, in part, that:

- "a. The QMP studies and other activities monitor quality of care against clinical or health services delivery standards or practice guidelines specified for each clinical or health services delivery area identified in II. A., above..."

Clinical care standards, practice guidelines, practice options and practice advisories are all types of "practice parameters". Practice parameters are recommendations or an agreed upon set of principles for the delivery of certain types or aspects of dental care. They are promulgated by authoritative bodies such as professional associations or ad-hoc "expert committees". Because professional judgment may often vary, there can frequently be more than one set of practice

parameters addressing the same topic. However, the vast majority of dental professional organizations endorse the use of practice parameters in improving the quality of dental care.

For this reason, the Guidelines recommend monitoring quality of care using clinical care standards or practice guidelines for each clinical or health services delivery area selected by the Contractor or State for study.

For other clinical or health services delivery areas to be studied by the Contractor as part of its agreement with TENNCARE, the Contractor and TENNCARE shall agree upon the clinical practice standards or practice guidelines which are to be utilized by the Contractor in its evaluation of care. If TENNCARE wishes the Contractor to evaluate care in an area in which the organization has not already adopted a set of practice guidelines, the organization and TENNCARE will agree upon usage of existing clinical practice standards/practice guidelines based upon those already developed by authoritative bodies.

## **V. QUALITY INDICATORS:**

In conducting quality of care studies, the organization assesses care through the use of objective indicators. Quality indicators are measurable variables relating to a specified clinical or health services delivery area, which are reviewed over a period of time to screen delivered health care and/or to monitor the process or outcome of care delivered in that clinical area. Item II. B. of the Guidelines states:

- "a. The organization identifies and uses quality indicators that are objective, measurable, and based on current knowledge and clinical experience...
- b. For the priority areas selected by the State from CMS Bureau's list of priority clinical and health services delivery areas of concern, or other sources as deemed necessary by the State, the Contractor shall monitor and evaluate quality of care through studies which include, but are not limited to, the quality indicators also specified by CMS Bureau or the State."

TENNCARE and the Contractor shall mutually determine clinical indicators to be monitored for each clinical or health services delivery area of concern. Because of its importance, continuity/coordination of care indicators shall be monitored by the organization on a continuous basis (as opposed to on a one time basis) and reported to TENNCARE on a Quarterly basis. At its own discretion or as directed by TENNCARE, the Contractor should identify, based on clinical practice guidelines described above, additional clinical indicators to be monitored for the additionally selected clinical conditions.

In addition, TENNCARE shall use individual encounter data and other required reports to monitor performance on an on-going basis.
